WASHINGTON, D. C., WEDNESDAY, JANUARY 22, 1930

(IP) Means Intercollegiate Press

OH LORD OF HOSTS
BE WITH US YET

Chips

O. D. K. is good and admits it. The fraternity decides that it has all the campus leaders save one in its circle, and proceeds to get that one man. Moral, there's at least one organization at G. W., where membership really means something.

The story has just come out that one of the men promoted this week on The Hatchet Staff was once out for the rifle team, and quit because he couldn't use his own gun. On The Hatchet he was allowed to use his own typewriter (there were never enough machines to go around anyhow) and so he stuck with the paper.

After tomorrow, as Mrs. Napoleon or some Frenchwoman said, comes the deluge. Some day we hope this paper will reprint a story written a few years back about the utter fatality and wastefulness of examinations.

"Alum Luncheon" to be given, we read. Personally, we never liked that particular mineral. Our staff chemist assures us that alum is a salt, but we prefer the kind that comes out of the box we can buy at the grocer's.

Two are also "named" as beauties, according to a headline writer. Parents of young daughters should think of the future and name their young hopefuls as beauties, and then there would be no trouble in marrying them off.

Most of the tragedies in this world, if we may believe Dean Inge (the gloomy dean) are caused by the actions of people who are neither wholly right nor wholly wrong. Like the man who argues with a traffic cop, for instance.

Life is just one thing after another. Just as soon as we finish paying for our after-examination celebration, we'll have to start saving for Jimmie Fleck's Interfraternity Prom. The thought occurs to us, however, that the Prom comes on February 28, which is, as we recall, payday.

The Troubadours still can't decide whether they want to go out of town and produce their show, or give the population of Washington another chance to see the comedy. If they go to the sticks, they should take dictionaries along so the natives would know what an archaeologist is.

Some school teacher down in Gawgia had a member of the class cut a small branch to be used as a pointer. The clever lad cut it off of a poison oak bush, or is it a vine? The suggestion is offered, without charge, for what it may be worth.

Chicago is already planning on another World Fair. Our advice is that they pay their present debts first, and then use their gunmen as exhibits of the progress of the city.

Take a look at the calendar on page two. Wonder why so many things are going on next week?

How in the dickens folks expect us to write a column, much less a good one, when their Fords refuse to go through snow-banks just outside our window is more than we can guess. By the way, wonder if ours will go?

DICK ROLLO.

O. D. K. BIDS TWO FOR OUTSTANDING CAMPUS ACTIVITY

National Honorary Fraternity Elects Dr. Ragatz and Kenneth Iverson to Membership

RAGATZ IS PAST EDITOR OF WISCONSIN OCTOPUS

Iverson is Sports Manager, Member of Cherry Tree Board, Gate and Key

Dr. Lowell J. Ragatz and Kenneth Iverson were elected to membership in Omicron-Delta Kappa, national honorary activities fraternity at its last meeting held at the Phi Sigma Kappa House, January 14.

This marks the first membership election to be held by the George Washington Circle, which was installed last June on the local campus. While membership is usually extended to include the most outstanding men in student activities, the selections named above indicate that at the present time there are few leaders in campus activities in the University who are not already members of this nationally known organization. Having been taken in as charter members when the Circle was installed, the present active roll shows that the control of practically all of the more important activities are still headed by this charter group.

Dr. Lowell J. Ragatz has been an ardent supporter of student activities during his entire collegiate career both as a student while at the University of Wisconsin and as a professor at The George Washington University. Probably his name will best be remembered throughout the world of college journalism for his founding of the Wisconsin "Octopus," the comic magazine at the Madison campus which is recognized today as one of the leading college publications of its kind in the country.

Since coming to the University, Dr. Ragatz has always manifested an unusual degree of interest in the students outside of the classroom as well as in it. He has made a large number of friends throughout the student body, has contributed his time and energy when called upon, and is generally acknowledged as one of the outstanding professors in his field of education. Omicron-Delta Kappa has selected Dr. Ragatz as the fifth member from the University faculty and administration. The other four, who are charter members of the circle, are Dr. Cloyd Heck Marvin, Dr. William Allen Wilbur, Dean Henry Gratton Doyle, and Professor Elmer Louis Kayser.

Iverson is Elected

Only one student in the University merited the choice of Omicron-Delta Kappa, Kenneth Iverson, a member of Theta Delta Chi, the only student who at the present time met the necessary requirements for membership. He holds one of the three positions of Junior Sports Managers, is a member of this year's Cherry Tree Board of Editors, and is a member of Gate and Key, the honorary interfraternity society. Since coming to the University, Iverson has been active in various campus work and has maintained a good scholarship record. He was manager of varsity basketball last year, played on the freshman basketball team his first year, and has been exceptionally active in publications and fraternity work. In computing the record of Iverson, it was found that he more than met the minimum requirement of fourteen points gained in student activities which is necessary for consideration for election. He is a junior in Columbian College.

The initiation of Dr. Ragatz and Kenneth Iverson will be held at the Sigma Alpha Epsilon House, at a date to be named later. The present officers of the circle are: Don Idehart, president; Jay Miller, vice-president; and John Thacker, secretary-treasurer. The other members in the active circle are: George Von Daghenshausen, Robert Gray, Henry Herzog, Herbert Angel, Gerald Sickler, Campbell Starr, Ford Young, and William Snow.

MIXER IS SCHEDULED

George Washington students will have an opportunity to celebrate the end of mid-year finals at an informal dance in Corcoran Hall on Saturday evening, February first. This University Mixer is being sponsored by the Colonial Club, and will be between the hours of nine and twelve with an unusually good orchestra furnishing the music.

MUSICIANS TO PRACTICE

The George Washington University Orchestra, which has discontinued practice during the mid-year examinations, will resume practice Thursday, February 6, in Corcoran Hall, at 12:15.

Players interested may join the orchestra if they qualify. Those who play clarinet, oboe, or flute are especially desired.

ALUMNI INVITE FACULTY

The General Alumni Association of The George Washington University would remind members of the University faculty that they are most cordially invited to attend the monthly alumni luncheons. These luncheons are given on the last Saturday of each month during the academic year, except when this date falls on a holiday. They are held at the Hotel Lafayette at 12:30 o'clock and the charge is \$1.00 per plate.

The luncheons afford an opportunity for faculty members new to the University to become acquainted with the alumni, and the Association will be happy to have them attend.

MORGALI, WINGO HEAD DEBATERS

Hagen, Dembitz and Keough Win Berths in New Administration

H. F. ARPS IS RE-ELECTED

Frisbie, Conner and Marks Appointed Heads of Committees of Columbian Debating Society

In a closely contested election last Friday evening, January 17, Ralph Morgali was elected president of the Columbian Debating Society. Morgali is a former first vice president of the club, a member of Phi Delta Gamma and Sigma Mu Sigma, and vice president of the Masonic Club.

James G. Wingo was elected first vice president unanimously. He was a former critic of the society and secretary of Pi Delta Epsilon.

After several ballots, Norman Hagen was declared second vice president-elect. Hagen is a member of the varsity debating team.

Harold F. Arps, a member of Sigma Mu Sigma and Phi Eta Sigma, was re-elected secretary.

Lewis Dembitz, of Tau Alpha Omega, was chosen treasurer for the second semester.

Paul Keough, a member of the varsity debating team and president of Phi Delta Gamma, was made critic.

Election Is Typical

A typical Columbian Debating Society election with its characteristic impetuous verbosity, was held. All the accustomed ardor and animated fervor, that are traditional attributes of the Columbian Debating Society, were present and stamped the election as an outstanding one and worthy of the spirited contests that have preceded it during the past one hundred years' existence of the society.

After the election that left the members well nigh exhausted the new critic had the moral courage to arise and mount the rostrum to fling the proverbial "cross of gold speech" to the already harassed members. He had barely started when certain of the group sensed his intentions. Thereupon followed such a volume of applause that would have done justice to the great Webster himself.

The young embryonic orator flushed with pride waited for the cheering to subside, but it continued with greater volume than ever and everytime the crestfallen orator made a fresh start he was greeted by more thunderous applause. At last in desperation the spellbinder made a hasty and somewhat undignified exit.

Committees Appointed

Karl Frisbie has been appointed chairman of the program committee. Norman Hagen and Gilbert Rabinowitz are the other appointees.

Norman Conner heads the publicity committee, the other members being James G. Wingo and Harold Arps.

Richard Marks is chairman of the membership committee, assisted by John G. Barbers and Josiah Lyman.

The Columbian Debating Society is one of the oldest organizations on the campus. In 1927, it celebrated its one hundredth anniversary. Debates are held each week. The members of the two contesting sides are recruited from the membership.

Ample opportunity is given every member to take part in the debates. An open forum follows the formal debate thus allowing persons from the floor to offer their opinions.

TWO NAMED AS BEAUTIES

The names of Peggy Mays and Carolyn Jackson have been added to list of candidates for "Colonial Belle" in the contest conducted by the Cherry Tree.

Votes for candidates may be acquired by subscribing to the Cherry Tree. Subscriptions are received at the Bursar's Office and by Joe Howard.

The proofs of pictures taken by Casson Studio are requested by the photographer to be returned as soon as possible to 907 Pennsylvania Avenue.

SECOND TERM'S COURSES START FEBRUARY FIFTH

University Offers Wide Variety in Subjects For Next Semester

REGISTRATION IN SEVERAL COLLEGES FEBRUARY 4-5

Faculty Augmented By Appointment of Arthur Hummel and Raquel Ahumada

With the beginning of the second semester of the one hundred and ninth academic year of The George Washington University, some seventy courses will open in various departments of instruction. Students may also register in February for many of the courses which run throughout the entire year. To accommodate students entering the University from high school in February, beginning language courses in French, German and Spanish have been arranged for.

Registration of new students will take place on Monday, February 3 and Tuesday, February 4, in Columbian College, the School of Engineering, the Graduate School of Letters and Sciences, the School of Pharmacy, the School of Education, the School of Government, the Division of Library Science and the Division of Fine Arts. Classes will start on Wednesday, February 5.

Two additions have been made to the faculty of the University. The Foreign Service faculty has been augmented by the appointment of Arthur W. Hummel, A. M., who will give a course on Political Backgrounds of the Far East.

Hummel Recognized Authority

Mr. Hummel is recognized as an outstanding authority on the Far East. He has lived in the Orient for many years, has taught in Japan and in China, and reads, writes and speaks Chinese. A graduate of the University of Chicago, Mr. Hummel taught for two years at the Kobe Higher Commercial College, Kobe, Japan; was principal of the Boys Middle School, Fenchow, Shansi, China, for nine years and taught for 13 years at the Peking School of Oriental Studies. Since 1928, he has been Chief of the Division of Chinese Literature in the Library of Congress.

Mr. Hummel is the author of numerous articles on Chinese history and civilization in various learned periodicals such as the Journal of the Royal Asiatic Society, the New China Review, the American Historical Review, etc. He is a member of the North China Branch of the Royal Asiatic Society and of the American Oriental Society.

A second appointment to the faculty is that of Raquel Ahumada, who joins the staff of the Spanish Department as Instructor in Spanish. Miss Ahumada is a native of Chile. She holds the degree of Master of Arts from Vassar College, and has taught at the Providencia School, Santiago, Chile, and at Vassar College.

Among the courses which open in February are the following:

In the Department of Botany a course in Field Botany will be given by Robert Elske Griggs, Ph. D., Professor of Botany. This course is a first-hand study of local flora, designed to familiarize the student with the native plants and with methods of field study, including the identification of plants. It will consist of field trips on Saturday afternoon and laboratory periods on Monday from 1:10 to 3:00 p. m. The Department will also offer a course in Cytology, one in Mosses and one in Fungi.

New Courses in Chemistry

New courses in the Department of Chemistry include Quantitative Inorganic Analysis, Organic Chemistry and Polypeptides, Dyes and Synthetic Medicinals.

The Department of Civil Engineering will give courses in Materials and Hydraulics Laboratory work, Bridge Structures, Higher Surveying, Practical Astronomy, Mechanics of Materials, and Reinforced Concrete and Masonry Construction.

In the Department of Economics, seven courses will open. A course in the Economic History of the United States, dealing with the economic development of the nation and of its latter-day commercial and industrial problems will be given on Tuesday, Thursday and Saturday at 6:10 p. m. by Forrest Albert Young, A. M., Instructor in Economics.

Joseph S. Zucker, Ph. D., Professorial Lecturer on Taxation, will offer a course in the Principles of Taxation, a general treatment of the principles and practice of taxation with special reference to methods and conditions in the United States, on Monday, Wednesday and Friday at 10:10 a. m.; and a course in Federal Taxation, a survey of income, excise and inheritance taxes and a study of the several Revenue Acts, on Monday, Wednesday and Friday at 6:10 p. m.

Investments Course Given

A course in Investments will be given by Harold Griffith Sutton, M. S., Associate Professor of Finance, on (Continued on page 4)

CHERRY TREE PICTURES

Cherry Tree pictures will be taken at 712 Twentieth Street, on Saturday, January 25—7 to 10 p. m. Tuesday, January 28—8 to 10 p. m. Thursday, January 30—8 to 10 p. m. Saturday, February 1—8 to 10 p. m.

ALUM LUNCHEON SCHEDULED SOON

In Honor of Three Emeritus Professors of Medical School

TO BE HELD JANUARY 25

Dr. Shute, Dr. Butler, and Dr. Ruffin To Be Honor Guests; All G. W. Graduates

The General Alumni Association of The George Washington University will hold the third of its series of luncheons, in honor of the emeritus professors of the University on Saturday, January 25, at 12:30 o'clock at the Hotel Lafayette.

Three eminent members of the medical profession, who taught for many years in the University, and who are all George Washington graduates, will be the guests of honor upon this occasion. They are Dr. Daniel Kerfoot Shute, Dr. William Kennedy Butler, and Dr. Sterling Ruffin. Through their practice and teaching these men have touched the lives of many George Washington alumni and they are widely known and revered. All have earned international reputation in their profession.

Dr. Daniel Kerfoot Shute, Professor Emeritus of Ophthalmology, holds the degrees of A. B. and M. D. from The George Washington University and has studied at the Royal London Ophthalmic Hospital and the University of Berlin. For 24 years, from 1886 to 1910, he was a member of the University faculty. He is the ophthalmologist of Providence Hospital, Central Dispensary and Emergency Hospital, Columbia Hospital, Government Hospital for the Insane, and George Washington Hospital. He is a fellow of the American Association for the Advancement of Science and holds membership in the Medical Society of the District, of which he has served as president; the Medical Association of the District, the Anthropological and Microscopical Societies, Association of American Anatomists, Clinico-Pathological Society, American Medical Association, Virginia Medical Society, and Society of Ophthalmologists and Otolologists of Washington. He has contributed widely to scientific publications.

Studied in London

Dr. William Kennedy Butler, Professor Emeritus of Ophthalmology, holds the degrees of A. M. and M. D. from George Washington and has studied in London and Vienna. He served on the University faculty for 30 years, from 1886 to 1916. From 1889 to 1917, he was Surgeon-in-Chief of the Lutheran Eye, Ear and Throat Institute. He is consulting Ophthalmologist of Garfield Hospital and Children's Hospital. Dr. Butler is a member of the American Medical Association, the Medical Society of the District, the Columbian Historical Society, the American Academy for the Advancement of Science and the American Ophthalmological Society.

Dr. Sterling Ruffin is Professor Emeritus of Medicine. He is a graduate of The George Washington University School of Medicine, and studied at the University of North Carolina and the London School of Tropical Medicine. He served for 22 years on the University faculty, from 1902 to 1924. Dr. Ruffin is Physician-in-Chief of The George Washington University Hospital, Visiting Physician of Columbia Hospital and Consulting Physician of the Government Hospital for the Insane, Episcopal Eye, Ear and Throat Hospital, Children's Hospital and United States Public Health Service.

Dr. Oscar Benwood Hunter, Assistant Dean of The George Washington University Medical School and President of the General Alumni Association of the University will preside at the luncheon.

ARTIST TO RECEIVE PRIZE

On January 31, the Architectural School will supervise the Guy Lowell Competition which begins Friday at five o'clock and ends on Sunday night, February 2.

The winner of the competition will receive a prize of \$3,000 for a number of years; the money to be used in the study of architecture.

POETRY CLUB TO MEET

Mrs. Nanita Balcom, prominent Washington penwoman, will address the Modern Poetry Club on Wednesday, February 5, at 1, in room 28, Building K. Using the poems of David Auslander in illustration, Mrs. Balcom will discuss tendencies in modern poetry.

HATCHET'S BOARD ELECT JAQUETTE, DEMBITZ EDITORS

Names Are Sent to Publications Committee to Receive Official Approval

NEW BOARD MEMBERS ARE FORMER ASSISTANTS

Verna Parsons and Willard Hammer Named to Fill Positions as Assistant Editors

Lewis N. Dembitz and Charles Jaquette have been nominated as new members of the Board of Editors of The University Hatchet, the Board has announced, and their names are being submitted to the University Publications Committee for approval. At the same time, it was announced that Verna Parsons and Willard L. Hammer were appointed to the sub-editorial staff.

Charles Jaquette is a senior in Columbian College. He was a reporter on The Hatchet for a year, and has been Sports Editor for this year. For two years he was Assistant Sports Editor of the Cherry Tree, and was on the varsity tennis team in 1927. He is a member of Phi Sigma Kappa, Gate and Key, Delta Phi Epsilon and Phi Delta Gamma.

Lewis N. Dembitz is also a senior in Columbian College, and has been on The Hatchet staff as reporter and assistant editor, for two years. He is treasurer-elect of the Columbian Debating Society, and is on the executive committee of the G. W. Liberal Club. He is a member of the Tau Alpha Omega Fraternity.

Verna Parsons will receive her A. B. Degree from Columbian College in June. Among her activities are four years varsity rifle, class tennis for two years, four years in Troubadours, Hatchet reporter for two years, manager of soccer, member of W. A. A., and W. A. A. Executive Board, Assistant Sports Editor of the Cherry Tree, '28-'29; Assistant Law Editor of the Cherry Tree '29-'30, and manager of freshman rifle. She is a member of the Chi Omega Fraternity.

Willard L. Hammer will also receive his A. B. Degree in June. He has been a reporter on The Hatchet, and is a member of the Acacia Fraternity.

STUDENTS COMPETE IN PARIS PRIZE SELECTION

George Washington Presided For District in Preliminary Art Exercise

More than sixty students from George Washington and Catholic Universities competed last Saturday, January 18, in the first preliminary exercise of the 23rd Paris Prize Competition.

George Washington University presided for the District of Columbia. In this area, 33 students came from Catholic University and 30 students came from George Washington Architectural School. The drawing lasted for twelve hours. Any citizen of the United States under 27 years of age was eligible to compete. This contest is directed by the Committee on the Paris Prize of the Society of Beaux-Arts Architects.

The prize for which these students competed is a sum, \$2,000 a year, to be given for a number of years to the winner, enabling him to pursue his study of art abroad. Lloyd Warren, a member of the Society of Beaux-Arts Architects, instigated the idea of the Paris Prize first in 1904. That same year the society inaugurated Warren's plan in the Paris Prize Competition that permitted the selection of a student to pursue his architectural studies in the First Class of the Ecole Nationale des Beaux-Arts in accordance with the Decree of the Minister of the Public Instruction and Fine Arts of Paris, France.

Members of the Beaux-Arts Architects gave the first purse for the maintenance of this Paris Prize Scholar during the prescribed period of study abroad. In past years contributions have been made by Andrew Carnegie, Pierpont Morgan, Messrs. William K. Vanderbilt, Alexander S. Cochran, Mrs. Harry Payne Whitney, and others; so that the fund has now become an endowed one.

TO DEBATE D. C. VOTE

"That the residents of the District of Columbia should be given the right to vote" is the subject of a debate between the Young Women's Christian Association and the Young Men's Christian Association, which will be held at 8 o'clock, Tuesday, January 21, at the Y. W. C. A., Seventeenth and K Streets N. W.

The affirmative will be upheld by the Y. W. C. A. The Hon. T. H. Caraway will act as chairman. Students of George Washington are cordially invited to attend this debate.

WASHINGTON, D. C., WEDNESDAY, JANUARY 22, 1930

PROGRAMS

In the rush of hasty conferences and hurried submissions of programs which will accompany final registration for the second semester of this year, it is inevitable that many students will fail to give due consideration to University requirements.

Such carelessness often leads to trouble later in the University course. Omission of courses specified under major requirements, failure of undergraduates to register for the needed proportion of second-section courses, and neglect of prerequisite requirements for future courses—these are conditions which may later cause great inconvenience or may even postpone graduation.

Students in the undergraduate schools who have not yet re-registered, must do so on February 3 or 4. They should plan their new programs, being sure to consult the necessary professors, as far in advance of those dates as possible, so that their final decisions will be the result of mature consideration.

ACTIVITIES

With the elections to Omicron Delta Kappa past, the University is again made to realize the power that lies in this organization. This is one of the youngest fraternities on this campus, but it numbers among its members many outstanding men in school. Its policy is not to choose the all-activity man. Many men can satisfy the activity requirement, but that is not enough.

To be eligible for Omicron Delta Kappa, the man must be a specialist in his line. This immediately cuts out the jack-of-all-trades. Everywhere one finds the individual who is assistant this or that to several organizations. However, Omicron Delta Kappa calls for leaders, not subordinates.

A parallel case is found in Hour Glass, the women's honorary society. There a girl must be an outstanding figure in several activities, and a leader in at least one. She must maintain a scholarship average fifteen points above passing, for a minimum of seventy-five semester hours work. Of course she must have a pleasing personality, and be acceptable to the other members.

In both groups, it is seen that the chief requirement is ability and leadership. Leadership is what the University wants and needs. The person who spreads his work in many lines and does little in any, accomplishes nothing. He neither develops himself nor helps the school. If he would lend his efforts to one organization, and would work seriously there, a place at the top is awaiting for him. If he tries to climb in every direction, he lands nowhere.

George Washington wants concentration of effort in one line. Today is the age of specialization. In the outside world, the day of the craftsman is gone. Here in school the same is equally true. A little tap here and a little tap there is still two little taps, when all around men are hitting blows. The man who does things is the man who knows his field from alpha to omega. He who does not know his work thoroughly will never do anything creative. And no man can serve two masters, and serve them well.

Because of the peculiar nature of the student body at G. W.—the large percentage of night students and those with many outside interests—there are a limited number of people having a great amount of time for extra-curricular activities. This leaves the burden of carrying on our many activities to a select few. There are opportunities for many in our organizations, and the groups themselves would be greatly benefited by the infusion of new blood.

All night students of the University were guests of the Women's Advisory Council at tea Thursday, January 16, in the Women's Building. Jean Westbrook played several violin selections. Tea was served under the supervision of the Home Economics Department.

Beta Chapter members of Phi Delta Gamma were guests at a delightful tea given by Elsie Green and Edith Haydon on January 5.

Josephine Wunder, Alice McCracken, and Dorothy Baumgarten of the Newman Club, attended the Navy and Marine Officers' ball last Thursday.

Dorothy Ruth entertained at a luncheon shower last Tuesday in honor of Virginia Crocker, who is to be married soon. The luncheon took place in the Women's Building and the guests included Miss Anna Pearl Cooper, Mrs. Vinnie G. Barrows, Louise DuBose, and the Y. W. C. A. cabinet.

Fletcher Henderson, Frank Westbrook, Steve Nymán, George Connally, and Howard Miller intend to motor to New York Tuesday, January 28, to spend a week.

The Home Economics Department held a luncheon Monday in its rooms. Among the guests were President Marvin, Dean Hill, Dean Ruediger, Mrs. Joshua Evans, Jr., and Mrs. Rollinson.

Chi Omega had a dinner in the rooms in honor of Dr. Bolwell last Monday.

Phi Delta gave a surprise shower recently to Mrs. Kadel at the home of Virginia Coffman.

Phi Delta announces the engagement of Margaret Wheeler to Alfred Montzka.

Among the guests at the Acacia fraternity for dinner last Sunday were Mr. and Mrs. Pixlee, Mary Hudson, Grace McLean, and Edith Norris.

Willard L. Hammer and David F. Houston, Acacians both, are planning an extended motor trip (via Ford) through North Carolina after the examinations. Special attention will be given Chapel Hill and Duke.

Pi Beta Phi announces the engagement of Jean Sime to Martin Brand, a Zeta Psi from Dartmouth.

Kappa Alpha fraternity held a dance at the House on Friday, January 17.

Pi Beta Phi entertained at supper in their rooms on Monday night Mrs. Blanche Ludlow Hudson, Mrs. Cornelia Clarke Huck, Miss Dorothy Had-dox, and Miss Mary Virginia Leckie.

Zeta Tau Alpha entertained their Alumnae at dinner on Monday evening in the rooms.

The Alumnae of Pi Beta Phi entertained the active chapter Tuesday night at the Women's University Club.

Barbara Miller entertained a few friends at a Midnight Supper at her home after the Panhellenic Subscription Dance Saturday night.

Kappa Kappa Gamma held open-house in their new rooms Sunday afternoon, January 19.

Dorothy Albert and Elizabeth Reeves gave a Shower Sunday afternoon, January 19, in honor of Virginia Crocker who is to be married the last part of this month.

The Alumnae of Zeta Tau Alpha entertained the active chapter at tea on Sunday, January 12, at the home of Beatrice Clephane.

Zeta Tau Alpha gave a bridge at the Women's City Club on Saturday, January 11.

Grace White spent the week-end at Quantico, Va.

Alpha Delta Theta announces the pledging of Inge Von Lewinski.

The engagement of Hylda Wrenn, member of Phi Alpha Chapter of Chi Omega, to Irving Russell was announced at a bridge party on Thursday evening, January 16.

Dorothy Saunders and Mildred Freeman attended the tea given for Admiral Tu at the Chinese Legation on January 16.

Henry Nestor, Carolyn Brasch, Jerry Sickler, and Bill Jemison gave a few skits at the Columbia Heights Board of Trade dinner on January 17. On January 18, they entertained at the University of Pennsylvania Alumni Banquet at the Press Club.

Marion Kreutzer will have as her guest in the between semester vacation, Miss Marcella Breidster of Smith College.

Mal Sykes and her sister, Mrs. Stevenson, are spending a few weeks in Clearwater, Fla. They are members of Kappa Delta Sorority, and attended G. W. last year.

Kappa Delta entertained at supper on Sunday, January 12.

Avril Stewart is recovering from a very serious illness.

Loretta Cunningham recently entertained the Delta Zetas at a bridge luncheon.

The Women's Advisory Council held a tea from 5-8 for the night students on January 16, in the Women's Building.

Frances Owen spent the week-end in New York, visiting Mary Williams.

Schedule Is Changed

Students are requested to observe the following changes in class schedule before making out their second semester programs.

C. E. 118A, Practical Astronomy, M. and F. 1:10.
C. E. 118B, Practical Astronomy, M. and F. 5:10.

Education 278, Methods of Commercial Education (Barnhart) Thurs. 7:30-9:30, D-12.

French IX (3), Elementary French (Deibert), Tues. Thurs. and Sat. 11:10, N-21.

German IX (3), Elementary German (Jehne), M. W. F. 10:10, W-25.

Mathematics 19X (3), Differential Calculus (Erwin), Tues. Thurs. and Sat. 5:10, U-11.

Mathematics 140 (3), Modern Analytic Geometry (Taylor), M. W. F. 10:10, V-11.

Mathematics 270 (3), Tensor Analysis (Taylor), M. W. F. 6:10, U-11.

Mechanical Engineering 118, Hydraulic Machinery (VanLeer), Tues. 6:10-Fri. 5:10.

Philosophy 103B, Principles of Philosophy (Richardson), M. W. E. 5:10, B-22.

Physics 16B, Physics for Engineering Students (Staff), Thurs. 5:00-7:00, Physics Laboratory.

Political Science 198 (2), Far East, Political Backgrounds (Hummel), Tues. and Thurs. 5:10, B-11.

Sociology 166, History of Social Work (Street), Thurs. 7:10-9:00, W-21.

Spanish IX (3), Elementary Spanish (Ahumada), Tues. Thurs. and Sat. 5:10, J-28.

Zoology 2 (3), Elementary Zoology (Brown), Tues. and Thurs. 5:10, K-12.

Zoology 6, Nature Study (Bartsch), Field trip Sat. 7-9, Lab. M. & W. 5-7.

Zoology 122 (4), Invertebrate and Vertebrate Anatomy, M. and F. 5:10, K-12.

Zoology 186, Genetics (Brown), Tues. and Thurs. 10:10, B-11.

W. A. A. WILL ENTERTAIN

The Women's Athletic Association will give a subscription bridge party in Corcoran Hall for the University student body immediately after the beginning of the second semester.

The subscription bridge is an annual affair and is open to both men and women. Tickets will be fifty cents a person.

Wednesday, January 22:
Liberal Club address, by Dr. John Gray, Corcoran Hall.

Saturday, January 25:
Cherry Tree Pictures to be taken—712 20th St.

Wednesday, February 5:
Modern Poetry Club meeting, Building K, Room 28—1.00.

Thursday, February 6:
Orchestra Practice, Corcoran Hall 1-12.15.

Parkhurst Gives Talk On Survey Instruments

Civil Engineers Enjoy Lecture Illustrated With Slides and Motion Pictures

The January meeting of the George Washington student chapter of the American Society of Civil Engineers was held in Corcoran Hall on Wednesday, January 8. Mr. D. L. Parkhurst, Chief of the Instruments Division of the U. S. Coast and Geodetic Survey, addressed the meeting on the use of ultraprecision instruments in surveying. His talk was illustrated by slides and motion pictures on the use of the instruments in surveying flood control projects in the Mississippi Valley.

A film was shown of the building of a road across the Great Salt Desert in southern Utah. This road, built under the Federal aid system by the State, has a peculiar base formed by salt deposited by the evaporation of salt water in a deep trench over a period of four years. This salt base is covered with clay, and the surface of the road consists of gravel. This road was recently opened to traffic.

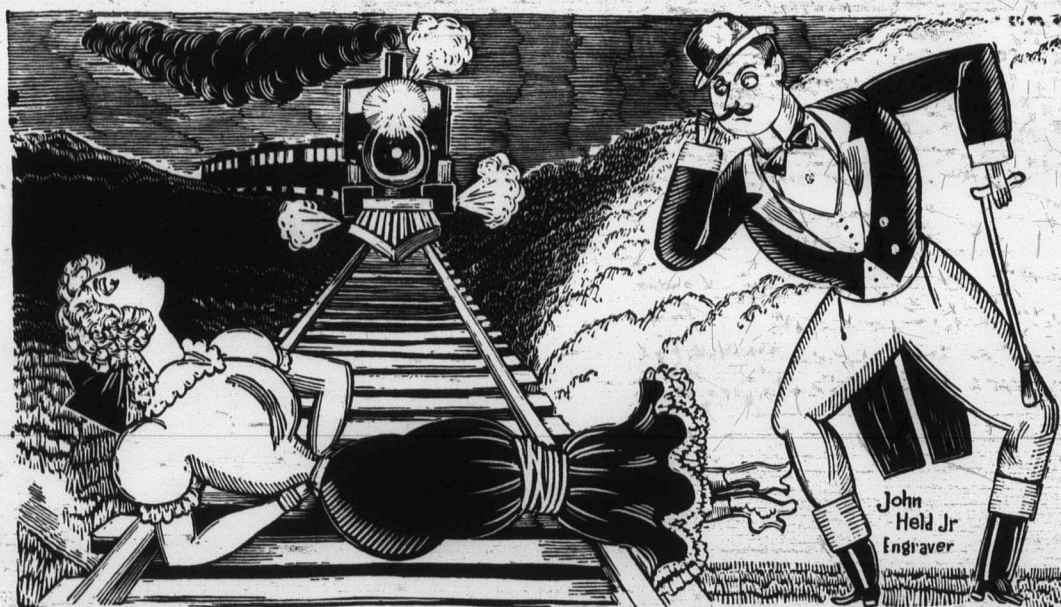

MASONS SELL FLOWERS

The G. W. Masonic Club will hold a special meeting soon after the second semester begins to make final arrangements for the sale of six thousand cherry blossoms during the week of George Washington's birthday. The proceeds of the sale will go toward the establishment of a chair of foreign service in the George Washington School of Government.

PAUL PEARLMAN

G. W. U. BOOKS

1711 G STREET NORTHWEST

"TOOT! TOOT! IT'S THE EXPRESS. WILL YOU YIELD OR BE GROUND BENEATH THE WHEELS?" ROARED INGLESBY

"Never!" cried Our Nell, bound to the rails, her eyes blazing with defiance. "Death is preferable to a life with such as you."

"How do you make that out?" he purred.

"A rasping voice such as yours would make life a living hell," she answered him. "Unbind me, change to OLD GOLDS and maybe I'll listen to reason."

FASTEST GROWING CIGARETTE IN HISTORY... NOT A COUGH IN A CARLOAD

COLONIALS GAIN CLOSE DECISIONS IN COURT GAMES

Randolph-Macon and Virginia Medical College Teams Are Losers

ONE POINT DECIDES FIRST; SECOND GOES OVERTIME

Gray and Jeweler Hold Home Team Forwards Scoreless From Floor At Randolph-Macon

The G. W. Basketball team returned victorious from its trip to southern Virginia. Their first game with Randolph-Macon was won by the score of 31-30. The second game went into an extra period, the Colonials emerging the victors over Virginia Medical College, 29-25.

Randolph-Macon started off with an early lead due mainly to foul shots. The Randolph-Macon five is rated as one of the best in the State of Virginia. The early lead brought the score to 14-3 in R. M.'s favor. The Colonials then started scoring and took the lead before the half was over, but lost it again and the half ended 16-15 in the opponents' favor.

The second half was one of close play, the lead changing several times. As the close of the game neared G. W. took the lead 28-26. Douthat, a guard, then intercepted a pass, shot a foul shot, was fouled and made both foul shots making the score 30-28 in favor of R. M. Harris made a foul goal and with less than a minute to play, Fine made a spectacular shot bringing the score to 31-30 as the game ended.

Colonial Guards Star

G. W. in the course of the game scored twelve field goals to seven for R. M. The reason for the closeness of the score was principally due to the fact that Randolph-Macon made 16 out of 20 foul shots attempted. The forwards of the opposing team were held scoreless by the G. W. guards. This was undoubtedly the best game played by the G. W. quint this year, the team cooperating in every way.

The game with Virginia Medical College was not so exciting. The team did

Inter-Class Swimming Is Scheduled Mar. 14

Meet to Include Form Swimming, Fancy Diving, and Other Events

The girls' inter-class swimming meet will take place on March 14, at the Y. W. C. A. pool, according to a recent announcement.

The exact schedule for the meet has not been arranged as yet, but there will probably be contests in form swimming, fancy diving, the plunge and several speed races, including a class relay.

Practices have been held almost daily at the Y pool in preparation for this event. Among the outstanding performers are Claudia Kyle, Betsy Booth, Inge Von Lewinski, Adele Appel, and Edith Brookhart among the speed swimmers; and Elizabeth Cates, Grace White, and India Bell Corea among the divers. Almost all of these girls took part in last year's inter-class meet and several swam on the varsity team. Several girls among the freshmen are also showing promise, both in speed and form.

Helen Lawrence, instructor in swimming, has appointed Marjorie Crittenden manager of the freshmen, Grace White for the sophomores, Annelle Walker for the juniors, and Claudia Kyle for the seniors.

not have the same spirit as was shown in the previous game. The Colonials started out to a good lead and held it through the first half, the score being 15-7. The second half was nearly disastrous for G. W. since they were outplayed and outscored by the Medicos. In the last few seconds of play in the second half Todd, a guard for the Medical School shot a basket to tie the score.

In the extra period Fine made two foul shots and a field goal and Guberg made two fouls to clinch the game for G. W. The final score was 29-25.

Fine was the most outstanding player during both games scoring 10 points in the first game and 13 points in the second. Harris and Jeweler were also outstanding, showing fine floor work and scoring consistently from the floor.

COLLEGE ENROLLMENTS ARE STILL ON INCREASE

PHILADELPHIA (IP).—Contradicting, apparently, the statements of Columbia professors that fewer students are matriculating at American colleges, Dean Raymond Walters, of Swarthmore College, writing in the current issue of School and Society, states that more colleges and universities have had gains in attendance and fewer have had losses this year than last year.

The Swarthmore Dean draws his conclusions from the returns of 226 institutions which are on the approved list of the Association of American Universities.

The total of full-time enrollments in the 226 approved institutions, he said, is 442,493, or an increase of 1½ per cent over last year. The grand total enrollment in these institutions, he said, including summer school and part-time students, is 697,584, or an increase of 2 per cent.

EXPERIMENT EXTENDED

MADISON, Wis. (IP).—President Glenn Frank, of the University of Wisconsin, has announced plans for abandoning the Experimental College established here three years ago by Dr. Alexander Meiklejohn, and extending the plan to the entire university. The experiment, Dr. Frank said, has been tremendously successful.

LIVELY FEATURES FOR GIRLS' GAMES

Athletic Department Plans Class Games Along With Varsity Contests

RALLIES ALSO SCHEDULED

Gallaudet To Be Met February 15; Varsity Squad Down To Normal Size

New and original features will characterize the games arranged for the women's varsity basketball team this year, according to Miss Helen Lawrence, the varsity coach.

Chief among the new features is a plan to play two class games as curtain-raiser to each home varsity game. It is believed that this will provide more entertainment for "rooters" and will stimulate interest in the class games.

Pep rallies, too, are being planned by the Physical Training Department. These will probably take place in the gym the day previous to each home game. That these pregame rallies will become permanent establishments for home contests is the earnest hope of the department.

Gallaudet College will be met in an unofficial scrimmage February 15. The program will start at 7 p. m. with the seniors meeting the sophomores and the juniors tackling the freshmen. The varsity scrimmage will begin at 8.15.

Also on the schedule are contests with William and Mary College at Williamsburg, February 22, Drexel Institute here, March 1, and Swarthmore College here, March 7.

January 10 the varsity squad was out for the second time this season. The players who by their skill and experience still remain on the squad are: Forwards, Naomi Crumley, Jean McGregor, Alethea Lawton, Janice Hyatt, Marian Lum, and Rose Rosen; centers, Jenny Turnbull, Dorothy Albert, and Catherine Palmer; side centers, Grace Haley, Wilhelmina Gude, and Mary Sproul; guards, Evelyn Folsom, Neva Ewin, Kay McCallum, Dorothy Wilson, and Mary Detweiler.

Bureau of Mines Chief Presents Travelogue

Mr. Hess of Rare Metals Division Gives Talk on Geology of Asia

"A Geological Travelogue Through Southeastern Asia" was the subject of a lecture presented by Mr. Frank L. Hess on Thursday evening, January 9, in Room 12 of Building K. The lecture was sponsored by Tau Chapter of Sigma Gamma Epsilon.

Mr. Hess, chief engineer of the Rare Metals and Non-metals Division of the Bureau of Mines, has just returned from an eight month trip through Southeastern Asia. In his very vivid and interesting account in conjunction with the lantern slides, Mr. Hess described economic conditions of the countries that he has visited, including China, Japan, the Malay Peninsula, and India. He explained in detail the various rock formations which he encountered.

A very interesting program has been arranged by Sigma Gamma Epsilon for the next public lecture which will be presented on February 20. Henry Warren Poor, a world traveler and an international lecturer, has been selected to be the speaker. He will show one hundred and fifty beautiful colored slides of historic Southeastern United States, including the ancient Santa Fe Trail abounding in pioneer lore accumulated in the days of the Pony Express. Various scenic natural wonders of that section of the U. S. will also be included in the slides. Mr. Poor has an international reputation for his masterly speech and vivid descriptive powers and through his travels has acquired a thorough knowledge of geography, especially of America.

Richelieu Discussed At Newman Club Meet

Father Cartwright Delivers Interesting Address in Absence of Senator Walsh

Members of the Newman Club who were disappointed in their expectations of a talk by Senator David L. Walsh when the Senator suddenly was called from the city were, however, well repaid for their attendance at the meeting of January 9.

Finch hitting on a few moments' notice, Father Cartwright, chaplain of the organization, discussed in a most interesting manner the life and work of Cardinal Richelieu, the Catholic and Cardinal Richelieu, the politician. That his talk was appreciated was evidenced by the applause which followed it.

On Friday, January 31, the Newman Club will sponsor a closed dance and card party at the Washington Club. Charles Ferry, chairman of the dance committee, promises club members that this dance, to be known as the Newman Club Frolic, will be the organization's finest social event of the year.

It is probable that Senator Walsh will speak at the club's next meeting on February 6.

DRIVERS SUSPENDED

ANN ARBOR, Mich. (IP).—Fifteen students caught violating the automobile regulations of the University of Michigan have been suspended. The total number is almost as large as the combined numbers of those suspended last year and the year before for the same violations.

Volley Ball Reaches Stage of Semi-Finals

Basketball is Next Sport Listed on Schedule of Intramural Games

Intramural volleyball has reached the semi-finals, with Kappa Kappa Gamma, Phi Mu and the "Colonialettes" the survivors. The finals will be played at a convenient date in the near future.

Basketball will be the next sport on the intramural schedule, and will be played during March. Girls participating in basketball must have a medical examination. Examinations will be taken in Dr. Chapman's office Monday, Wednesday, or Friday at 12. At least four practices during the month of February are necessary for entrance in the tournament.

Teams may arrange for practice games any evening from 7 until 8, and on Thursday afternoon from 2 till 3.

No girls having won major letters in basketball at George Washington will be eligible to play, and only two minor letter girls will be allowed for each team.

PRACTICES SCHEDULED FOR GRIDMEN IN SPRING

Condition is Valuable Asset For Gridders When Long Trips Are Taken By Team

Early this spring, Head Coach James E. Pixlee, will call out his candidates for the varsity football team for spring practice.

Under the present athletic regime, spring football practice will become an established institution at George Washington University. Coach Pixlee is a staunch believer that athletes must be kept in good physical condition the year around; especially football men, who are so subject to injuries when out of condition.

Former Coach H. Watson Crum also held spring practice, but his early training period was short and the new system will doubtless differ in a great many respects from that of the former head coach.

With prospects of facing the most difficult grid schedule ever undertaken by a Colonial eleven, it is necessary that every player on the squad be able to step into the breach whenever called upon by the coaches.

Condition Important

Condition will prove an extremely important factor during the coming year, because the long trip to Tulsa, Okla., will take a great deal from the stamina of the men, unless they are hardened by that time. It is understood that if negotiations with the University of Iowa are completed satisfactorily, that game will be played in Iowa City next year, with Iowa coming here the following year. Under these plans, another long cross-country will be taken by the team.

The coaching staff are quite pleased with next year's prospects. The powerful Freshman eleven, who completed so successful a season during the past year, will become eligible for varsity competition next year. These men augmented with a few of this season's varsity will give the University a strong representation on the gridiron during the coming year.

STUDENTS OF CAMPUSTRY STRUCK BY PSYCHOLOGIST

DENVER, Col. (IP).—The co-ed who goes to college merely to study campuistry and the male student who attends for the sole purpose of displaying his prowess on the football field have struck a mighty blow at the foundation of higher education, according to Daniel E. Phillips, professor of psychology at the University of Denver.

In the current issue of School and Society, Professor Phillips advocates a "new type" institution which would literally abolish the modern university with its "undermining" influences and begin all over again, free from the shackles of tradition and convention. This time, however, he proposes to do the job right.

"I am not at this time attempting to patch up a rotten ship," he asserts. "I propose the building of a new type of ship."

His new ship would not produce mighty warriors of the gridiron, sorority sisters and fraternity brothers, inflated by their superficial knowledge of the classics, but "students of purpose, scholarship and invention of the highest kind."

He would drive from the halls of the institution the "flapper, the loafer, the sport and the idle rich," eliminate the red tape of examinations and the grading system, abolish sororities and fraternities, and ignore athletics.

COLUMBIA CLAIMS MORE INTELLIGENT FRESHMEN

NEW YORK (IP).—Argument may continue as to the quality of the finished product turned out by American colleges and universities, but Columbia University says that each year's crop of freshmen is more intelligent than the last.

Columbia claims the brightest freshman class in the country this year. Results of the Thorndike intelligence test given the upper quarter of the 1933 class, rate the participants at 91.5 as against an average of 85 in other first-class colleges. Assistant Dean Eccles said: "The quality of the average applicant has increased considerably. We are drawing a greater number of boys who distinguish themselves in scholarship and leadership before coming to Columbia."

FRESHMAN TEAM WINS OVER 2 LOCAL QUINTS

Georgetown Freshmen and Gonzaga Are Victims; Burgess and Carlin Star

Georgetown University Freshmen and Gonzaga High School have fallen before the George Washington Cubs in the last week and have been added to the long list of victims. The team has settled down to a consistent and winning game which culminated in the overwhelming defeat of Gonzaga.

In the game with the Hilltop youngsters, the Cubs started out with a rush and at the half were leading by a large margin. The G. W. second team replaced the regulars at the beginning of the second half and Georgetown narrowed the gap between the teams. Before the locals lost the lead, however, the regulars replaced the subs and drew away to a final score of 27-21. Forrest Burgess was the high point scorer.

Every man on the squad participated in the game with Gonzaga. The prep school boys offered practically no opposition to the Cubs and the G. W. quint was victorious by 52-17. Burgess and Lee Carlin led the victors in points scored. Burgess was responsible for 14 points and Carlin for 12.

The next game for the Freshmen is scheduled for February 6 at the Tech High gymnasium where the Georgetown Freshmen will be met for the second time.

FLIVVER CAUSES WRECKS

WASHINGTON (IP).—A survey made by the American Motorists' Association has led to the conclusion that half of all the accidents which take place on Saturday afternoons when big football games are scheduled are due to the "collegiate flivver."

Saturday football traffic, the survey revealed, as a rule runs speedily and orderly, but what delays are caused usually are the result of antiquated machines with neglected motors, defective brakes or broken steering apparatus. The college boy with his overloaded, dilapidated wreck of a car is the principal offender, the report concluded.

INITIATION IS HELD BY GATE AND KEY

Twelve Men Gain Membership In G. W. Interfraternity Honorary Society

SOCIAL EVENTS PLANNED

Membership Limited to Three From Each National Social Fraternity

Men representing ten national social fraternities of The George Washington University were initiated into the honorary society of Gate and Key at a meeting held at the Acadia House, Tuesday, January 14.

The newly initiated members are: J. Wesley Jones of Sigma Alpha Epsilon, D. Russell Coombs of Theta Delta Chi, Kenneth R. Iverson of Theta Delta Chi, Gerald Sticker of Sigma Chi, Lyman H. Dishman of Acadia, Norman L. Benzing of Sigma Phi Epsilon, Archie P. Burgess of Sigma Nu, Henry A. Zuberano of Kappa Sigma, Malcolm P. McGregor of Kappa Sigma, Clyde B. Christopher of Delta Tau Delta, Willis Dudley of Theta Upsilon Omega, Charles G. Jaquette of Phi Sigma Kappa.

Membership in Gate and Key is limited to three men from each of the national social fraternities in the University. Consideration is given only to such men who have distinguished themselves as prominent fraternity workers in their respective organizations, as well as outstanding students in the University. Total active enrollment is limited to thirty-three.

Officers for the present year are: William Snow, president; Robert Gray, treasurer; and James Fleck, secretary. In addition to the members named above, Gate and Key includes, in the active chapter, the following men: Charles Futterer, Frank Milwee and Jasper Highsmith of Kappa Alpha, Edwin Weihe of Theta Delta Chi, Dan Terrell of Kappa Sigma, Donald Slicker of Sigma Chi, Charles Cole of Delta Tau Delta, Harold Farmer and Jay Miller of Sigma Nu, George Spangler of Acadia, Henry Herzog and Floyd Pomeroy of Theta Upsilon Omega, William Licklider and Don Iglehart of Sigma Alpha Epsilon.

Plans for a series of social events for the ensuing semester will be announced by William Licklider, social chairman, in a future edition of The Hatchet.

ENGINEERS HEAR CROWN

J. E. Crown, Master Mechanic at the Naval Gun Factory Foundry, addressed the meeting of the student branch of the American Society of Mechanical Engineers, held in Corcoran Hall on January 5.

Mr. Crown's subject was "The Relation Between Foundry Practices and the Engineer." His interesting talk included a description of the methods used at the Gun Factory in casting a statue of Tecumseh, which was designed from an old wooden statue and will be presented to the United States Naval Academy as a gift from the Class of 1885.

The annual engineers' banquet will be held in the near future; preliminary arrangements are now being completed.

PROF. RAGATZ' WORK HAS SECOND EDITION

Guide to Correspondence of West Indian Governors is Republished by Edwards Press

A second edition of "A Guide to the Official Correspondence of the Governors of the British West India Colonies With the Secretary of State, 1763-1833," by Dr. Lowell J. Ragatz, assistant professor of history, has just come from the presses of Bryan Edwards, in London.

This second edition, which is identical with the first save only in form, was published to assist research students who are engaged in approximately a dozen different studies centering around imperial problems and their solution in the history of the Caribbean colonies of Great Britain. The first edition, which appeared about six years ago, has been out of print for some time; and it is for this reason that the new limited edition was published.

With the recent decision of the Library of Congress to photostat West Indian records and documents in the Public Record Office, a new demand for the guide was established, and the Library has already taken several hundred copies which will be used in future research.

Doyle Speaks Before Harvard Club of D. C.

George Washington Dean Talks on Cultural Relations of Latin-America

Dean Henry Gratton Doyle gave a speech before the Harvard Club of Washington last Saturday on the "Cultural Relations of Latin-America and the work of the Harvard Council on Hispano-American Studies."

Doyle is himself a member of this council, which is headed by Dr. J. D. M. Ford, who holds the celebrated position of professor of Spanish at Harvard University. This chair has been held by only four men in the history of the institution and they have been Ticknor, Longfellow, and Lowell. The other seven men on the council are all former students of Dr. Ford; they are: A. F. Whittem and G. Rivera, at present professors at Harvard; S. M. Waxman, Boston University; A. Coester, Leland Stanford; H. G. Doyle, George Washington; S. E. Leavitt, University of North Carolina; and A. Torres-Rioseco, University of California.

The council came into being last year, and according to Dean Doyle, the purpose is to encourage interest in the culture of Latin-America. The professors are first making a bibliography of the literature, then each will write a monograph, for publication, on his particular aspect of the subject. The George Washington dean is handling the Central-American division.

SECOND TERMS COURSES START FEBRUARY 5

(Continued from page 1)

Monday, Wednesday and Friday at 9.10 a. m. and at 5.10 p. m. This course will deal with the basic principles of investment; analysis of the various factors of investment credit; and their application to the different types of investments; needs of various classes of private and institutional investors; proper selection of securities adopted to these needs and necessary care of investments after making them.

Other courses in finance will include one in Auditing under Professor Richard Norman Owens on Tuesday, Thursday, Saturday at 6.10 p. m. and one in Economic Statistics under Dr. Frank McGinley Phillips, on Tuesday, Thursday and Saturday at 6.10 p. m.

For Foreign Service students a course will be offered in Foreign Trade, the principles and procedure of exporting and importing, on Tuesday, Thursday and Saturday at 5.10 p. m., under Mr. Young.

The Department of Education will offer a number of courses for teachers and public school supervisors.

William Cullen French, Ph. D., Professor of Education, will give a course in the History of American Education, tracing the development of the American school system with special reference to administrative features and social relationships, on Monday, Wednesday and Friday at 10.10 a. m.

Teaching Technique Offered

On Monday, Wednesday and Friday at 9.10 a. m. and at 4.10 p. m., a course will be given by Dean William Carl Ruediger in the Technique of Teaching, which will consider the principles underlying the teaching process with special reference to the nature and meaning of the subject matter taught.

A course in Tests and Measurements will be given under Jessie Elizabeth LaSalle, A. M., Professorial Lecturer in Education, and Tenes Henry Schutte, Ph. D., Visiting Professor of Education, on Saturday morning from 9.10 to 11.00 a. m.

The special purposes of the junior high-school and the appropriate reorganization to achieve them, the pro-

Cues, Curtain Calls and Clinches

NATIONAL

"The Vagabond King" plays at the National this week. Three consecutive years have seen this production on the boards of Washington theaters. As in the case of most well worn musical shows, there is a diminution of quality, both in voice and in production. Denis King is sorely missed, with his rich voice and subtle action. This is not a wholly poor production, however. What with the color and beauty of set and costume, and the themes of Friuli's music, the spectator is not disappointed. One or two high spots lift the play out of comparative mediocrity. The love scene at the palace of King Louis, and the dramatic denouement of the finale lend to the production a warmth that is reminiscent of its premiere.

As to weaknesses—the lowering of price says enough. If you haven't seen this, don't expect too much.

Otis Skinner, one of the oldest troupers that ever enriched the traditions of the stage is appearing in "Papa Juan" next week at the National.

The play and the player have gained the fame that comes to the few. The play as a piece of literature, published before it played; the player as a ranking star of fifty years experience.

"Papa Juan" was written by Serafin and Alvarez Quintero. It is a mellow, tender story of an old man at his decline. Besides being a beautiful and near-perfect characterization, it is a picture of Andalusian life written by natives of that country.

Otis Skinner is adding to his reper-

toire of portraits another characteristic study. His portrayal of the role makes one forget to look for possible flaws, and the audience comes away with the character and personality of "Papa Juan."

POLIS

"Robin Hood," favorite of the stage, will again delight audiences with its leafy foliage, winsome maidens, and tin cups of brown October ale.

Next week's performances will mark the thirty-ninth year of the operetta's existence as a semi-classic of the stage.

DeKoven saw the first performance of his work at Boston in 1891, when a thoroughly professional performance was staged, the entire production costing \$109.50, the script being read to the performers by the prompter. It was well received, however, and this success led and has since led to others, covering a period of nearly four decades.

"Robin Hood" is noted particularly for its light charm and sparkling humor. De Koven's music—almost classic in character, is light enough to be understood and appreciated by the frequenters of musical comedy and even movies. The scene is laid in "Merrie Old England" and lends itself to a lyric quality, which maintains itself throughout the whole work.

The cast includes Olga Steck, William Danforth, Greek Evans, Sudsworth Fraser and other stars of note, who have come direct from the Johnson Theater in New York, where Schubert and Aborn have produced several successful revivals this winter.

gram of studies, classification of pupils and history of the movement will be considered in a course on the Junior High School to be given Monday, Wednesday and Friday at 5.10 p. m. under J. Orin Powers, Ph. D., Associate Professor of Education. Professor Powers will also offer a course in Extra-Curricular Activities, Saturday from 9.10 to 11.00 a. m., and a course in Supervision, on Monday, Wednesday and Friday at 6.10 p. m.

In the English Department a course in the Teaching of English will be given by Professor Dewitt C. Croissant on Tuesday, Thursday and Saturday at 4.10 p. m. The course in Browning, under Provost William Allen Wilbur also will open in February.

New courses in Electrical Engineering include Hydro-Electric Engineering and Electrical Design.

A course in the Geography of the Americas, under Charles Elmer Resser, Ph. D., Lecturer in Geography, will be offered Monday, Wednesday and Friday at 6.10 p. m. In the Department of Geology and Geography, the German Department will offer a course in beginning German on Monday, Wednesday and Friday at 10.10 a. m., under Theodore Roskam.

Jehne, A. M., Instructor in German. In the History Department, Lowell Joseph Ragatz, Ph. D., Assistant Professor of History, will give a course dealing with the history of Europe since 1914, the background of July, 1914, the Grant War and problems of the peace period. This course will come on Monday, Wednesday and Friday at 5.10 p. m.

The Department of Home Economics will offer courses in Food Selection, Food Preparation, Nutrition and Dietetics, Clothing Selection, Clothing Construction and House Furnishings.

Library Courses Scheduled

New courses for librarians given in the Division of Library Science, include a course in Reference Bibliography, Book Evaluation and Selection, under Professor Alfred Francis William Schmidt on Monday, Wednesday and Friday at 5.10 p. m., and a course in Library Extension, Publicity and Community Service, under Professor Elizabeth A. Lathrop, on Tuesday, Thursday and Saturday at 5.10 p. m.

In Mathematics, courses in College Algebra, the Theory of Numbers and Mathematical Statistics will open. In Mechanical Engineering there will be new courses in Descriptive Geometry, Hydraulic Machinery, Combustion Engines and Refrigeration.

The School of Pharmacy will have new courses in Pharmaceutical Chemistry, Pharmacy, Drug Analysis and Ethics of the profession.

The Physics Department will open courses in Thermodynamics, and X-Ray and Radio activity.

Under the Political Science Department the courses which will open in February include Legislative Organization and Control of Administration, given by Professor Warren Reed West on Tuesday, Thursday and Saturday at 5.10 p. m.; Latin America, given by Professor John Albert Tillema, on Monday, Wednesday and Friday at 5.10 p. m., and Political Backgrounds of the Far East, given by Arthur W. Hummel, A. M., on Tuesday, Thursday and Saturday at 5.10 p. m.

The Psychology Department will open courses in Applied Psychology, Psychological Tests, Statistical Methods in Education, and Comparative and Animal Psychology.

Public Speaking Courses Offered

In the Department of Public Speaking, established last fall under the endowment of Mrs. Chauncey M. Depew, the curriculum will be greatly expanded in the new semester. Professor Willard Hayes Yeager, Depew Professor of Public Speaking, will offer a course in Business and Professional Speaking, on Monday, Wednesday and Friday at 10.10 a. m., and Tuesday, Thursday and Saturday at 6.10 p. m. Professor Yeager also will give courses in Advanced Debating, on Tuesday, Thursday and Saturday at 5.10 p. m., and in Masters of Public Address, on Monday, Wednesday and Friday at 11.10 a. m. A course in the Oral Interpretation of Literature will be offered on Monday, Wednesday and Friday at 10.10 a. m., and at 5.10 p. m., under George Leslie

ART CLUB HONORS NEW OFFICERS WITH DANCE

Dr. Huntington Was Installed Recently as Director of Arts Promoters

Members of the Art Promoters' Club held a dance in the patio of the Carlton Hotel on January 9, in honor of their new executive officers. The club, organized by Dr. Gertrude Brigham of George Washington University, has many George Washington students among its members. Mr. William Elderkin Huntington of the Art School, was recently installed as Director of the Art Promoters.

In the receiving line on Saturday were the executive director, Mr. William Elderkin Huntington; the official hostess of the society, Mme. Josephine de Lagnel; Mr. Isaac Gann, Margaret Louise O'Brien, Mr. Jess Rhorback and Mae Henriette Vance, vice presidents; Mittle Burch, corresponding secretary; Pauline Brunet, social secretary, and Deal Bogue, treasurer.

Following the reception, there was dancing in the patio, and later a program of music under the direction of Margaret O'Brien. Mme. Coutinho, concert pianist and graduate of the Royal Conservatory of Lisbon, headed the musical program, selecting the "Bolero" and "Polonaise" of Chopin and "Seguidillas" of Albeniz for her numbers. Mme. Coutinho was a student of Eugen d'Albert, himself a pupil of Liszt. Miss O'Brien appeared in the program, singing a group of songs by popular composers. Frank Kinsbury, tenor, arranged other interesting selections. He was accompanied by Eleanor Colborn, who later gave several piano selections in concluding the musical part of the evening.

A buffet supper was served at midnight.

Fraternity Has Tenth Anniversary Smoker

Delta Phi Epsilon Will Hold Founders' Day Exercises At Georgetown

The George Washington Chapter of Delta Phi Epsilon, foreign-service fraternity, will participate in the Founders' Day exercises Saturday, January 25, at the Georgetown Chapter House, 1852 Biltmore Street, celebrating the tenth anniversary of the founding of the fraternity.

A stag smoker will commence at 8.30 Saturday evening. Many alumni members will be present, and several short talks from them are expected.

George Washington's chapter, the youngest chapter, was installed at exercises held at the Georgetown chapter house on December 14 and 15.

FOR OBERLIN STUDENTS

New System, Recently Adopted, Becomes Target of Objections

OBERLIN, Ohio (IP).—The "grading" system, condemned by students who "came to college to get an education, not marks," is back in full force at Oberlin College.

The faculty granted the request of the undergraduates to do away with the system, inaugurated last spring at their asking, whereby students were simply informed that they were passing or failing.

Discontent grew steadily under the new system. The Oberlin Review declared that as long as grades were kept by the faculty, the students had better know what those grades were. The best way, the college paper said, was to have no grades at all. The college was not willing to go that far, however.

Club Hears Poetess

The most interesting meeting this year of the Modern Poetry Club was held last Wednesday. Jane Groome Love, one of our well-known Washington poetesses, gave a talk on her poetry. She told where the inspiration for her various pieces came from, the style that she used, and the discrimination she showed in marketing poetry by sending in poems suitable to a magazine's general type. During the past ten years Mrs. Love has written a number of poems, most of which have been published in current magazines.

The next meeting will be on Wednesday, February 5, in Room 28, of the Library Building. Another Washington poet will address the club at this time, of which future notice will appear in the next issue of this paper. All students interested in the reading or the writing of contemporary poetry are cordially invited to attend the meetings of the Poetry Club.

MENORAH MEETS FEB. 13

The next meeting of the Menorah Society is scheduled for Thursday, February 13, at 8.30, in Corcoran Hall. A debate is to be held on some subject involving a Jewish phase, definite announcement of which will be forthcoming later. The debaters are to be Miss Bessie Litman and Mr. Joseph Mendelson.

SOUTH AMERICA TOPIC

Stephen Q. Hayes, general engineer with the Westinghouse Electric Company, lectured last Wednesday in Room J-46, on "Engineering Projects in South America."

Mr. Hayes has done outstanding work in the engineering field both here and abroad. He has recently returned after completing some important engineering projects in South and Central America.

Archaeology Classes Hear Speech Describing Islands Near Greece

Legends and facts of the Greek Islands made an illuminating and interesting lecture subject for Dr. J. L. Horton, retired archaeologist and writer. Dr. Horton's talk provided an intimate bit of Greek provincial life for the archaeology classes of the University.

Dr. Horton, prior to his retirement, was Consul General to Athens, Salamis, Smyrna, and Budapest. Decorations were presented him by England, Italy, and numerous other foreign countries. He has also been lauded for his conduct as Charge d'Affaires during the war in Smyrna.

"Like Another Helen," a novel analogous to the story of Helen of Troy by Dr. Horton achieved great popularity towards the beginning of his career and was followed by some fifteen others treating of the Hellenic atmosphere of the places in which he spent most of his life. Before the publication of his current book, Dr. Horton was offered a check by his publishers to spend a year among the Attic Islands gathering material. During his sojourn, Dr. Horton had typical pictures taken, some of which were shown by lantern slides at his lecture.

An intimate journey through the chief islands of the group was the method of presentation. Stopping first at Crete, Dr. Horton related the legend of Theseus and Ariadne, which like other Greek myths is founded on fact. Literary references were quoted, and then the competent cicerone led the group to Thera, high on a cliff, an excellent example of archaeological remains. Rhodes, famed for its colossus, and historical and mythical information, was visited next. From the point of view of the scientist this is perhaps the most interesting.

Lesbos contained glamour for the more erudite ones, for it was there that Sappho lived and wrote. A beautiful island in itself, its historical and literary interest enhanced its value to the ethnologist and excavator. Tinos was the next port of call by Dr. Horton. It is noteworthy as a religious center. There are comparatively few inhabitants, but this island supports six hundred churches. An interesting fact was brought out by Dr. Horton, namely, out from port, meeting with adverse weather make a vow to build a church, if providence conducts them safely to shore. They keep their vows. So on through Delos, Nexos, and the tiny islands, the group was conducted until Dr. Horton brought to an end a delightful cruise.

At the end of the lecture Dr. Horton gave to the class a delightful bit of Greek love poetry, closing his lecture with a final atmospheric touch.

COURSE ON WORLD WAR TO BE GIVEN BY RAGATZ

History Professor States That Many Revelations Made Since War Make Course Desirable

In line with a tendency shown in universities throughout the country, Dr. Lowell Joseph Ragatz is starting a course in February on "Europe since 1914." Dr. Ragatz makes the following announcement about the new subject.

"Usually it is a great many years before the truths about a war are discovered. However, we now have a great deal of information about the last great war. This is because various nations, feeling themselves unjustly held to blame, sought to justify themselves and therefore published their official archives. First Austria, Hungary, Germany, and Russia did this; that stimulated France, Great Britain, and the United States to follow suit; after that the individual statesmen and rulers, concerned to show their innocence and wrote their memoirs.

"We have had to, therefore, change our whole attitude towards the war since these disclosures have been made. We now know that William of Germany, instead of forcing the war tried to prevent it. We know that the 'atrocity' stories had no foundation. We know that the central powers' people were as much worked on as the American by propaganda attempting to show that their cause was the just one.

"Many new facts have been disclosed, particularly in the last three or four years. Books written about the war before 1927 are now obsolete and students who studied the war before that year must make a new study of the case. For all these reasons the course is being given."

General European History is a prerequisite for this course.

Neon Tube Is Studied

Radio transmission of power through a newly acquired neon tube is the field of research now engaged in by the George Washington Radio Club. Members of the Radio Club are devoting every available moment to the exploitation of this new "gadget," but as yet no startling results have been achieved. Great things are expected of this new tube, however, for it apparently employs a principle which will ultimately lead to the efficient transmission of radio power.

This tube has no wire filament, but is filled with a gas which glows a very pretty red with the passage of electricity. The experimenters report satisfactory transmission over short distances, but so far no long-distance work has been done.

The radio checkers schedule between G. W. U. and Eastern colleges has been delayed in starting due to several factors, but the club was successful in replaying several games of "Tic-tat-toe" with students in New Bedford, Mass., last week.
